

What We Do

Our daily aim is engagement in fun learning activities; we do this by making the most of the fantastic facilities that are incorporated in both of our spacious buildings situated in our village-style community centre, they include;

A spacious kitchen to support clients preparing food, cooking and enhancing life skills

Hydrotherapy swimming sessions

A spacious sensory room

Relaxation living spaces

Large open activity area

Hoists and changing facilities

ICT to enhance learning and fun

Art and Craft sessions

Soft sensory and messy play activities

On site gym, café, library and Education Centre

Regular, organised family events

Community links

... as well as weekly trips out to exciting places and in our own community.

Opening Times

Monday – Saturday

08:00 – 16:00

Come say hello

The Freedom Centre Community Village,
97 Preston Rd,
Hull, HU9 3QB

Same Difference is an exciting day-care provider for adults with Autism and physical disabilities.

Our aim is to ensure a calm, caring, safe, stimulating, supportive and happy environment for all.

Communication and Life Skills

Same Difference enables clients to develop their communication and life skills. Our experienced and dedicated staff work meticulously to follow individual plans.

To help grow communication we are able to support individuals with the use of sign language, Picture exchange communication (PEC), objects of reference and eye gaze technology.

We support individuals to expand their self-help skills, prepare and cook simple meals, go shopping and integrate into community activities.

“I think Same Difference and its staff are amazing. They continue to help me become more independent and complete challenges I have previously been unable to do. I am treated like an individual and they see the ability I have, not my disability”

“The manager, Rachel, and staff at Same Difference are so dedicated, caring and professional that we could never see our son going to any other provision – our son’s seizures have reduced significantly and his sleeping patterns are much improved since he began at this day-care provision”

SS, parent.

“The moment I walked into Same Difference it had such a warm, calm and homely feel”

Social Worker.

Our Values

By approaching our unique individuals and understanding their needs, we find new and exciting ways to reactivate their engagement with self-help independence skills. There is no ‘one-size-fits-all’ solution and so we adopt a personalised approach for each individual to ensure continued progression whilst feeling safe, happy, valued and supported.

By bringing passion, empathy and exceptional standards of care to their unique cases, we enable our clients to grow and reach their potential. ‘Aspiration not limitation’ should develop our clients to a point where they can contribute and be a valued member of their community and wider society.
